Education

Bachelor of Engineering in Computer Science and Engineering,
KCG College of Technology
Current CGPA: 7.8

2022 – present
Chennai

Professional Experience

Full Stack Developer Intern, Mazelon Technologies

Oct 2024 – Feb 2025
Chennai, India

- In my 5-month tenure, I have worked on integrating CRM and SMM into one single application.
- This application displays and improves the working efficiency by 40% compared to other CRM and SMM tools individually.
- The frontend utilises Angular.js, and in terms of server operations, Node.js and Express.js were the key technologies.
- We have used MongoDB as a part of the database of this application, which gives us a scalable and efficient database.

SDE Intern, Quadrasystems.net

Jun 2024 – Jul 2024
Coimbatore, India

- Got the opportunity to hone my skills in User Interface and User Experience Design.
- Mastered various designing tools like Figma, Framer and Webflow and also have valuable experience in No-code Development.
- Contributed my skills in various real-time projects of this organisation, including Intelligent AI and other projects.

Projects

Soul AI

- This is an AI-trained chatbot that performs Sentiment Analysis and Detection using NLP and CLM along with TensorFlow.
- This chatbot acts as a virtual companion who is ready to listen to all of your thoughts and offer emotional support.
- Used Python Flask to implement the AI model training and perform other backend operations.
- Integrated with React.js to provide a seamless experience for the end users with a neat and responsive UI.
- This application has the capability of drastically reducing the suicidal as well as depression rates all over the globe, offering mental support and peace.

Skills

Programming — Python | Java | C | JavaScript | TypeScript | SQL | PHP

Frameworks and tools — React.js | Next.js | Angular | React Native | Node.js | Express.js | JSP | SCSS | Mendix | MongoDB | Firebase | GitHub | Python Flask | Figma | Framer | WebFlow

Domain — Full Stack Development | Mendix Development | AI Development

Courses

AI/ML Engineering Course, NDSE by Central Gov of India

Cleared the Skill Competency Certification Examination for the role of AI Machine Learning Engineering with a score of 83%

Python Fundamentals, Infosys Springboard

Learned core Python programming skills applicable to logical thinking and problem-solving skills.
